Mario,

I am writing to ask how we should handle our 2018 holiday decorations. For the past two years it appears that the decorations have not been lit. I'm really not sure why. I paid for the electricity, but just found out last week that they were never on.

I will ask Dekra-Lite to investigate why they were never on. If it is determined that we will no longer be able to light them, do I still need to go through you for the permit or can it be handled the same way a banner permit is obtained?

I would like to get this resolved quickly since I was forced to choose an undesirable installation date this past year.

I look forward to your feedback.

Kind regards,

Lorena Parker
